Terms and Conditions: Commercial 45 Kg LPG Cylinder Supply Agreement Eureka Gas (Doritec Pty Ltd) A.B.N. 58 117 454 001

1. This agreement is for the supply of LPG and the supply of gas cylinders to the customer at the street address overleaf.
2. Eureka Gas retains title to all cylinders that it supplies to its customers. Risk associated with the use of the cylinders passes to the customer on delivery.
3. Title in the LPG in Eureka Gas cylinders remains with Eureka Gas until paid for in full by the customer, at which time title passes to the customer. Risk associated with the storage, handling and use of the gas passes to the customer on delivery.
4. In the event that loss or damage (including defacement) occurs to Eureka Gas cylinders in the customers possession, the extent of such loss or damage being determined by Eureka Gas, the customer agrees to reimburse Eureka Gas for repairs to the cylinders and if deemed necessary by Eureka Gas for the replacement cost of the cylinders. Defacement includes but is not limited to any labels, stencils, paint, inks, solvents etc. applied to the cylinder whilst in the customers' possession.
5. **The initial price of the LPG in the cylinders supplied by Eureka Gas or its agents, and the periodic service fee is the price stated overleaf. The LPG price has been calculated on the basis of information provided by the customer, including the amount of LPG required. If at any time during the course of this agreement the customer's actual requirements are significantly less than the estimate on the face of this agreement Eureka Gas may amend its pricing to be commensurate with the customer's actual LPG requirements. Australian refiners currently amend the refinery gate price of LPG on a monthly basis, and our suppliers of parts and materials occasionally vary their prices to us. Subsequently Eureka Gas may, on a monthly basis, and at its discretion, amend the customers purchase price for LPG and service fees. In determining the extent of any price variation to be passed onto a customer, Eureka Gas may also take into account other prevailing factors affecting its supply to the customer, including but not limited to variations in Eureka Gas' costs.**
6. The customer will not use gas from other sources in the cylinders supplied by Eureka Gas, or in any other way misrepresent the Eureka Gas brand.
7. Cylinders attract a periodic service fee stated overleaf, such fee being payable on each cylinder loaned to the customer. In addition other service fees may apply under this agreement. Please refer to the LPG section at www.eurekagas.com.au for full details of service fees.
8. Eureka Gas may adjust service fees periodically to reflect increases in costs including but not limited to material, maintenance, or service delivery costs.
9. Changes to the customer's price will be communicated to the customer upon request or on the customers' next invoice.
10. Payment terms are stated overleaf.
11. Accounts overdue by 30 days or more may be placed on hold and be subject to a fee commensurate with the cost of administering the account
12. Credit card payments incur a processing charge (see over).
13. Rejected cheques incur a processing charge at the prevailing CBA rate.
14. Payment defaults (being payments which are overdue by at least 90 days) will be reported to Creditor watch. This may affect the customer's ability to access credit from other sources.
15. In the event that Eureka Gas is required to employ a debt collection agency or commence legal action to collect a debt from the customer, such costs will be added to the customer's account and the customer agrees to pay all such costs as are incurred.
16. Eureka Gas business days are 8.45 am to 4.45 pm Monday to Friday
17. Eureka Gas provides free delivery into several suburbs of Melbourne on certain days (see list at www.eurekagas.com.au). Deliveries outside this are not generally available. If delivery is requested and arranged outside our normal delivery days for the customers location a fee will apply (see www.eurekagas.com.au). Deliveries outside our free delivery locations are by special arrangement and incur a delivery fee. The customer is solely responsible for maintaining an adequate stock of LPG and the customer indemnifies Eureka Gas against any loss resulting from running out of gas. Deliveries are deemed to have been completed if signed for by the customer OR the delivery driver.
18. The customer indemnifies and keeps Eureka Gas indemnified against any claims which may be brought against it, in respect of any loss or damage arising from any fault or defect in the gas cylinders, or the adjustment or repair thereof, or relevant to the gas, except where such loss or damage is caused by the negligence of Eureka Gas.
19. The customer will comply with all relevant state and federal regulations and undertakes and warrants that at its premises:
 1. The gas cylinders will not be used if known by the customer to require maintenance or repair.
 2. A faulty cylinder will be isolated in the open air and in a safe place by the customer until removed by Eureka Gas.
 3. The customer will allow only Eureka Gas to remove or exchange Eureka Gas cylinders.
 4. The customer will remove and isolate cylinders without delay if the supply of gas from them adversely affects the customer's equipment.
 5. No alteration, replacement, adjustment or repair to the cylinders will be carried out except by Eureka Gas.
 6. The customer will comply with current regulations regarding safe handling and storage of gas cylinders.
20. The customer agrees to give Eureka Gas 7 day's written notice of a change of address, change of entity name or type, significant changes to its share register, or any other changes to its business entity that would be notifiable to ASIC.
21. The customer agrees to provide 'all weather', unobstructed and structurally appropriate access for Eureka Gas delivery vehicles, and to reimburse Eureka Gas for the removal/repair of any Eureka Gas vehicle that becomes damaged or immobilised at its premises due to the customer's failure to provide the aforementioned.
22. **This is a rolling 12 month supply agreement commencing on the date of the first gas delivery, wherein the customer has consented to purchase LPG products and services exclusively from Eureka Gas. At its initial and every subsequent expiry date this supply agreement will roll over into a further 12 month supply agreement unless terminated in accordance with clause 23**
23. This agreement can be terminated by the customer after the first or any subsequent 12 month supply period by giving Eureka Gas notice in writing within 2 months either side of the expiry date.
24. In the absence of such notice this agreement shall continue to be effective until the next periodic expiry date
25. If this supply agreement is terminated by either party, supply of Eureka Gas product may at Eureka Gas discretion, continue until the expiry of the notice period and the customer agrees to pay for all such deliveries.
26. Within 7 days of the expiry of this agreement the customer will make available for collection all Eureka Gas cylinders, such collection to be made by Eureka Gas on a single occasion of its own choosing.
27. In the event that collection is not arranged by the customer as per clause 26, cylinder service fees will continue to be charged to the customer until the cylinders are returned to Eureka Gas.
28. At any time after the end of the supply agreement, Eureka Gas may at its discretion treat any unreturned cylinders as lost and charge the customer for the full replacement cost (per clause 4).
29. Eureka Gas may at any time terminate this agreement without notice.
30. Eureka Gas will not be liable for any loss or damage in respect of, or relating to the customers storage, use, and handling of the gas cylinders and gas, and Eureka Gas hereby disclaims all implied conditions and warranties and all prior representations and statements in respect of or relating to the customers use of or handling of Eureka gas products.
31. In the event that the customer makes significant changes to its business entity (see clause 20) the customer will immediately pay in full its outstanding account with Eureka Gas. A request for and subsequent acceptance of goods by the changed or new entity will be deemed to be acceptance in full of Eureka Gas' terms and conditions for supply of goods.
32. The customer may have other rights implied by law, which cannot be excluded by this agreement. Nothing in this agreement shall limit the benefit of those conditions, warranties and rights. However, where under such a law Eureka Gas is permitted to limit its liability in respect of a breach of such implied conditions, warranties or rights, Eureka Gas hereby limits its liability to the fullest extent permissible under that law.
33. Any notice required to be given shall be sufficiently served on the receiving party if delivered or posted to the address of the receiving party herein given or as last known to the sender. Notices are deemed to have been served at the time they would be received in the ordinary course of post.
34. Any clause or part of a clause, which may be invalid or unenforceable, shall be capable of being severed without affecting other clauses hereof.

A NOTE ABOUT GAS SAFETY:

By signing this agreement you explicitly agree to the following clauses A & B:

A. At the point of installation:

Your Safety is important to us. We are legally obliged to ensure that we do not knowingly connect our gas cylinders to non-compliant or unsafe installations. Therefore when you ask us to connect a cylinder at your ("new customer") premises we will check that the gas plumbing at the point of connection appears to be in safe working order before we connect. You hereby grant us authority to rectify and make safe any non-compliant customer LPG plumbing that we encounter and you hereby agree to pay us for the cost of this work upon receipt of our invoice.

During the installation process if you revoke your authority for safety issues to be rectified, we will not proceed with the installation of our cylinders and you will be liable for the cost of the aborted delivery and any subsequent re-delivery

If your cylinder installation is new and has not been in service before we cannot supply gas until you provide us with your plumbers' completion certificate

B. Whilst subsequently delivering gas to you:

During the course of our service agreement with you we will warrant the safety and compliance of our cylinders but that responsibility will not apply to your connections to our cylinders, and does not apply to any downstream fittings or equipment. We are obliged by regulation to refuse service to installations that we find to be non-compliant. If during the course of our service agreement we find your LPG facility to be faulty or non-compliant we will not supply LPG into it. We will advise you of any gas safety issue we find and request that you employ a licensed person to rectify it. When we receive notice that the gas safety issue is rectified we will deliver LPG at the next available scheduled date.
