

We are keeping up your gas supply during the new restrictions.

Stage 4 Restrictions apply on 6.8.2020

- Contactless deliveries to permitted business customers will continue.
- Our welding gas and gear store in Melton will be **closed to the public** and we will only be serving permitted **trades**. Please call us on 03 97437998 to gain access to our yard.
- If you are not engaged in a permitted trade, then we are only able to sell essential items to you as prescribed under the stage 4 restrictions. You will need to order online or by phone and arrange a contactless pick up. Our sales staff will not be available for face to face consultation.
- Contactless home gas deliveries should remain unaffected, please call and order as usual.
- Permitted orders made via our **e-store** <https://store.eurekagas.com.au> can be collected from outside our store only once pickup has been confirmed.
- Alternatively, please call us on 03 97437998 to discuss delivery options. A small charge may apply for deliveries.
- Unfortunately, Stage 4 Restrictions have forced us to cease filling customers BBQ cylinders on site, and as such our SUPER SATURDAY refill special is **suspended** until further notice.
- Regular rate BBQ swaps will be available, but you will need to call ahead.

These new restrictions are for everyone's safety and we will continue to update you as we receive updated advice from the Vic Gov.
